Please note that the web registration can be done only during the designated period.

We recommend you to **take a screenshot** after you click “**Register**” and check it with “**Confirmation of Registration Status**”.

[Note]

Course registration web entry can be done at any time during the “Course Registration” and “Registration Revision” period, except for maintenance time (4:00-5:00, 18:00–19:00).

※The system is normally available from 18:00 to 19:00, however, inputting data will be unavailable when maintenance is held.

Registration Revision Period: April 11 (Tue) 9:00 - April 18 (Tue) 13:00

To obtain permission, please send an email to the instructor in charge via **THERS email address** with the following information: **(1) Student Number, (2) Name, (3) Course Name, and (4) Registration Code**.

The email addresses of the instructors in charge are available in the **syllabus**. (refer to p.4 “2. Syllabus”)

You will be able to join each TACT course site after your instructor has registered you. Please check that the course site you have registered for has been added to the "Site List" in the upper right corner of the TACT website.

*From 2023 NUCT will change to TACT

Course registration will not be completed just by obtaining permission to attend (and just by reflected on TACT).
Don't forget to register online on the Educational Affairs System.

6. GPA (Grade Point Average) System and Handling of Grade Assessment (“W” and “F” grades)

Nagoya University employs GPA, Grade Point Average system based on the “six-step” grade scale: A+, A, B, C, C- and F. According to the GPA system, a grade of “F” (fail) results in 0 points and lowers the GPA; however, a grade of “W” (withdrawal) does not affect the GPA. Therefore, the difference between a grade of “F” and “W” is significant as it strongly affects your GPA.

7. Course Withdrawal System

Nagoya University has introduced the course withdrawal system.

If you want to withdraw from an ILAS course, please notify the instructor in charge via the TACT message system. The notifying period is from April 19 (Wed) to the end of May in this semester, however, it might vary depend on the courses so please check the course syllabus or inquire the instructor directly about the deadline.

※For specialized courses, please contact your School. Be aware that the course withdrawal system may vary depending on each School.

***From 2023 NUCT will change to TACT**

8. Setting of Upper Limits on the Number of Registered Credits (Cap System)

Upper limits on the number of registered credits (cap system) are set with the aim of ensuring students have sufficient time to study by encouraging them to carefully select the courses they will study and the number of credits so that they can truly learn the course content and take appropriate courses in each academic year. Each School and Department sets upper limits on the number of credits students may register for courses per year or semester.

Students who have acquired their prescribed credits with an excellent academic record may register for courses in excess of the upper limits on the number of credits.

The upper limits on the number of registered credits, conditions for raising the limits, and other matters are determined by each School. For details, see the Student Handbooks for each School.

In principle, the following courses are not counted in the upper limits on the number of credits for course registration. (The handling of this may vary by School and Department.)

- Intensive courses
- Credit exchangeable courses of other universities (including overseas and online universities)
- Courses for foreign language proficiency test certificates
- Courses for which credits were already acquired before admission
- Special courses

9. Content Courses Taught in Japanese (JMI Courses)

“Content Courses Taught in Japanese” are courses in “Global Liberal Arts” Course Category. They are general program courses taught in Japanese. If you earn credits by taking these courses, they will be included in required credits for graduation as “Global Liberal Arts” courses.

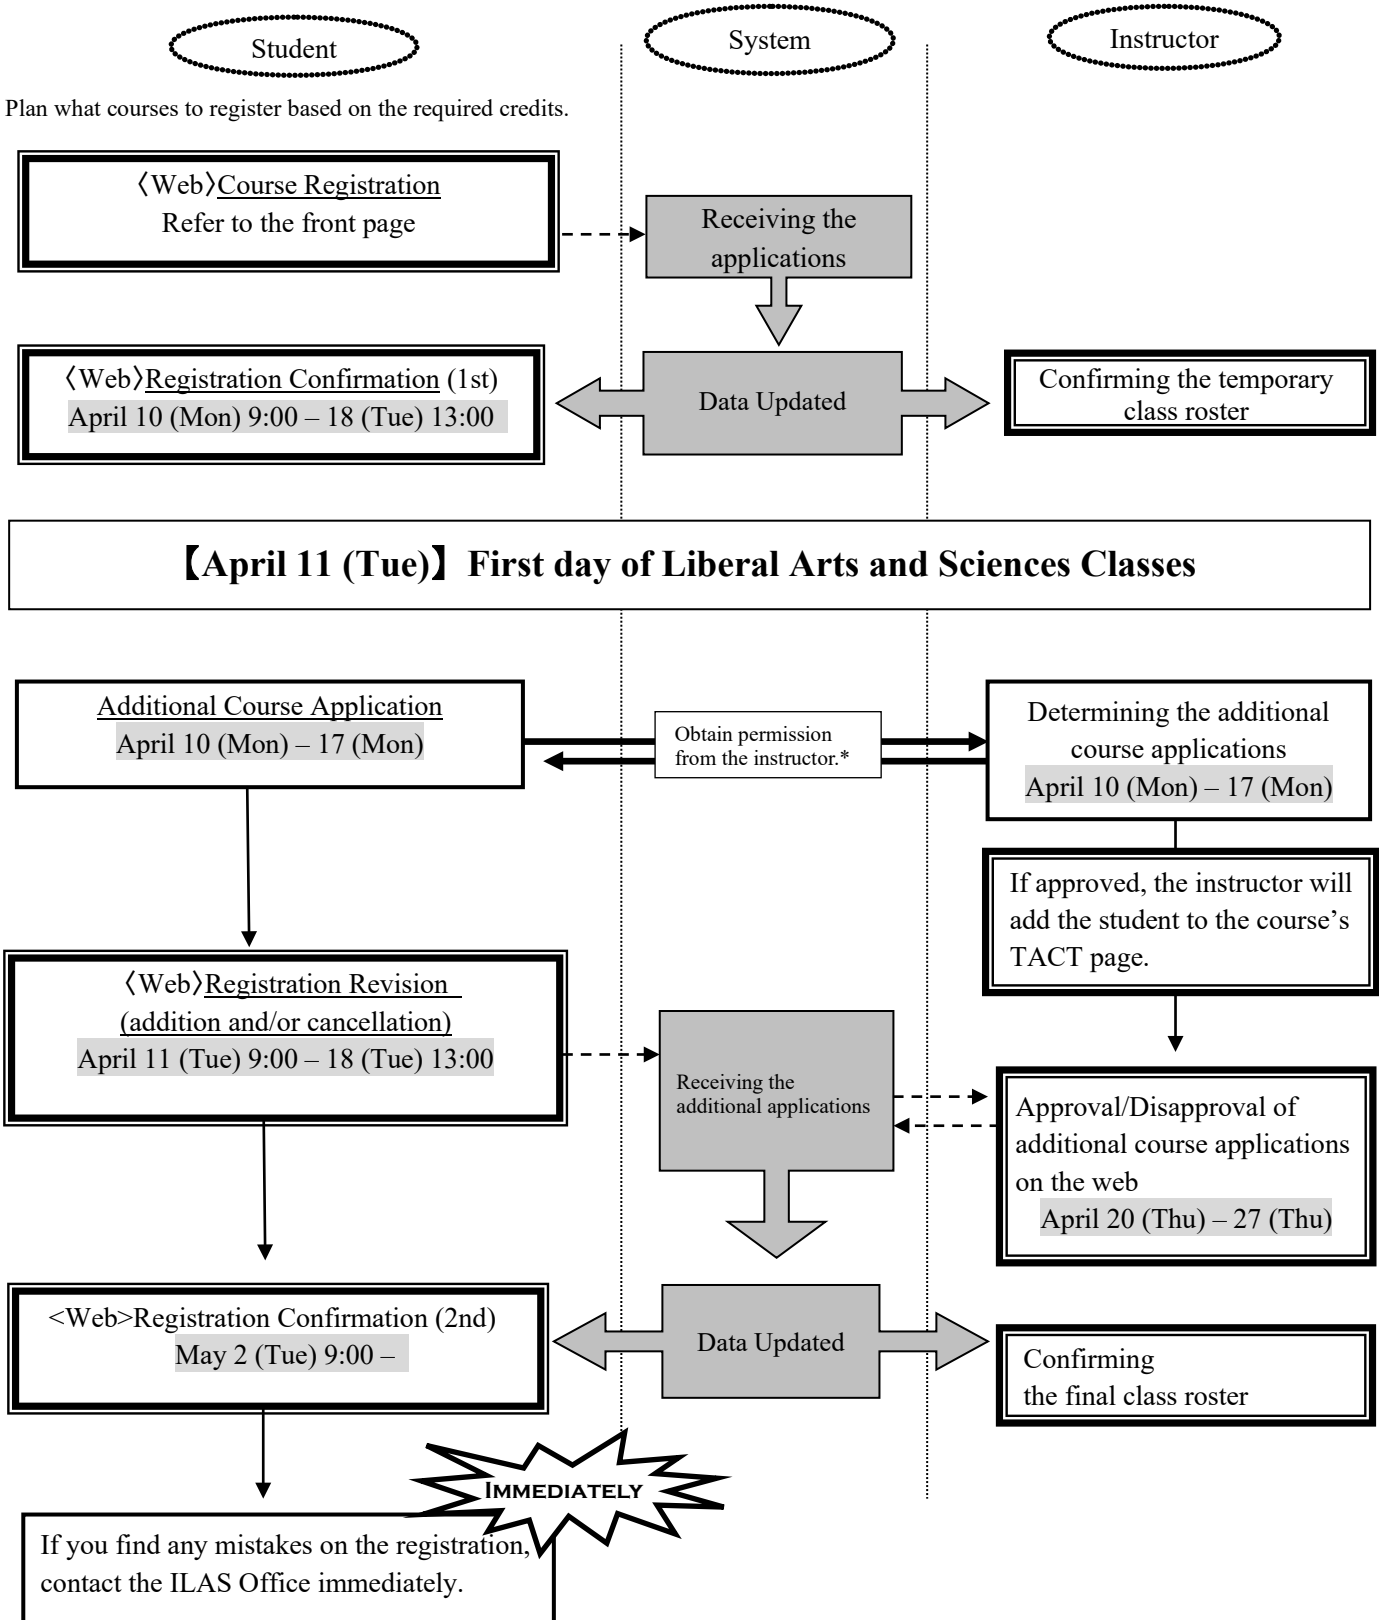

*“Content Courses Taught in Japanese” are for 2nd year students and above, so you will be able to take these courses from 2023 Fall Semester.
